

**Carol Fazekas**  
**Clinical Consultant**

Carol Fazekas, RN, CCM, works as a clinical consultant for care management program development and clinical content and quality. She has more than 20 years of case management experience in multiple settings as a manager in primary care, critical care, managed care, and Federal Employee Programs with a strong focus on care management for the Medicare population.

She developed and implemented a number a care management programs including a multidisciplinary Frail Elderly program and Care Support Transitional Care program for a regional insurer. Carol brings extensive experience in the use of predictive modeling and other data mining tools needed to identify individual patient, population and payer needs. She frequently participates with the business team in vetting care management software platforms to be used by clinical staff.
